Saskatchewan Crane Training Schools

Saskatchewan Crane Training Schools - We have designed numerous Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the skilled operator who needs re-certification or certification, and for inexperienced operator who is searching for a job in the industry. Positions for crane operators are high due to their high pay. Crane operators are amongst the highest paid of any operator of heavy equipment.

Our Crane Operator training provides instruction for various mobile cranes. Course content comprises Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts.

The Crane Training School program is suitable for operators, riggers and supervisors. Course materials comprise a manual and informative hand-outs. The safety manual that is illustrated features 100 to 250 pages, which depends on the course, of essential and useful material. Course materials include load charts and load chart exercises for the crane with which the trainee is working.

More than half of the course includes Hands-On Safety Training. Practical training is effective for developing and increasing personnel skills levels. Only qualified journeyman crane instructors are chosen to teach the courses. Our instructors possess numerous years of practice in the industry.

For all the course we provide, we can include optional testing mechanisms to customize your training. A skills test is normally administered for programs which include H.O.S.T. Trainees would be graded and tested.

We offer certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Certification and Training; Testing & Certification; and In-The-Seat Training.

Industry standards of practice are changing as new industry requirements emerge. There are continual updates to legislation and regulations. Enhancements in equipment and technology continue to be made. Industry data collection and analysis detect trends which are changing. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members abreast of workplace and personal safety news.
